

Ask Your Child About:

- how to add three or more numbers together by looking for groups of 10. (Example: $12 + 7 + 8 + 13 = ?$)
- the setting of a story. What is the setting? (Where/when a story takes place.) What is the setting of his/her Patricia Polacco book? How does s/he know?
- patterns! What is a pattern unit? What is the pattern unit in this pattern: ABCCABCCABCC?
- compound words. Give three examples!
- Leaf writing! We used our senses to describe our leaves. What words did s/he use to describe his/her leaf?
- The Hundred Dresses. What is this story about? Why are we reading this book? What has happened so far?
