

March 3, 2008

Dear Parents,

Beginning tomorrow, your child will be bringing home testing prep homework. These packets are to prepare the students for the DCCAS which they will take in April. You can expect a Math packet on Tuesday nights and a Reading packet on Thursday nights. Please allow your child to work in a quiet place and complete the packet. Then, check over the packet and return it to school the next day. We will review difficult problems in class. Some of the packets may take longer than others, so please be prepared to be spending extra time on homework on Tuesdays and Thursdays. These packets will not take the place of regular homework, although I am not sending home Word Wall Homework this week since it is the first time the students are getting a packet. Please let me know if you have any questions.

Thank you,

Mrs. Yedwab
